

venu babu banala

Java Full Stack Developer | Spring Boot · React.js · MySQL · REST APIs · Docker · Multithreading
9963662332 | venubanala485@gmail.com | Hyderabad | Willing to relocate nationally
github.com/Venukanna | linkedin.com/in/venufullstack172

SUMMARY

Results-driven Java Full Stack Developer with 3 live-deployed production applications using Spring Boot, React.js, MySQL, and Docker. Proven ability to architect role-based enterprise systems, implement JWT authentication, resolve cloud deployment challenges, and deliver end-to-end features independently. Strong communicator and fast learner with hands-on Agile sprint experience. Open to relocating and contributing to client-facing engineering teams from day one.

TECHNICAL SKILLS

Languages:	Java (Core Java, OOP, Multithreading, Concurrency, Collections, Exception Handling, Design Patterns), JavaScript, SQL
Backend:	Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, REST APIs, JWT, Maven, Microservices (concepts)
Testing:	JUnit, Mockito (basic), API testing with Postman, manual test case design
Frontend:	React.js, HTML5, CSS3, Responsive Web Design
Database:	MySQL, Relational Database Design, CRUD Operations, Query Optimization
Tools:	Git, GitHub, Docker, VS Code, Swagger/OpenAPI (basic), Postman
Deployment:	Render, Vercel, Aiven Cloud MySQL, Netlify
Concepts:	Agile/Scrum, MVC Architecture, SDLC, API Integration, Clean Code, SOLID Principles, CI/CD (awareness)

PROJECTS

TicketPro — Helpdesk Management System

[Live](#) | [GitHub](#)

Spring Boot · Spring Security · Spring Data JPA · React.js · MySQL · JWT · REST APIs · Render · Vercel

- Architected a full-stack IT Helpdesk System with role-based dashboards for 3 user types (Employee, Support Engineer, Manager), simulating real enterprise support workflows deployed on cloud infrastructure.
- Designed and implemented **18+ REST API endpoints** managing ticket lifecycle, status transitions, audit history, and dashboard metrics using layered Controller-Service-Repository architecture with MySQL.
- Implemented **JWT-based authentication** via Spring Security for fine-grained role-based access control, applying OOP and design pattern principles across the service layer.
- Resolved CORS, cloud DB connectivity, and environment variable challenges during production deployment on Render (backend), Vercel (frontend), Aiven Cloud MySQL.

Online Compiler with Test Case Support

[Live Demo](#) | [GitHub](#)

Spring Boot · React.js · Docker · REST APIs · Vercel · Render

- Built a full-stack online compiler supporting browser-based code execution for HTML/CSS/JavaScript/React with custom test case evaluation and result processing via Spring Boot REST APIs.
- Integrated **Docker-based isolated environments** for secure multi-language execution (Java, Python, C, C++), demonstrating containerization and secure code sandboxing.
- Engineered concurrent request handling for simultaneous code submissions, applying multithreading concepts to backend execution pipeline.

Earthquake Visualizer

[Live Demo](#) | [GitHub](#)

React.js · USGS API · React-Leaflet · Recharts · Netlify · Vite

- Built a real-time earthquake monitoring app consuming live USGS REST API data with geospatial map visualization, magnitude filtering, country search, and tectonic plate overlays.
- Implemented robust API error handling, state management, and responsive design — demonstrating practical API integration and frontend engineering skills.

WORK EXPERIENCE

ExcelR Solutions — Web Development Intern

April 2024 – December 2024

- Developed a responsive e-commerce frontend in React.js with reusable component architecture across **8+ product pages**; collaborated in 2-week Agile sprints with a 4-member team using Git branching and code reviews.
- Optimized application performance and cross-browser compatibility across mobile and desktop breakpoints, applying clean code and SOLID principles throughout the codebase.
- Gained practical experience in Agile/Scrum workflows, sprint planning, daily standups, and delivering features iteratively under tight deadlines.

EDUCATION

Bachelor of Science (B.Sc) — Kakatiya University, Warangal

Graduated 2025

CERTIFICATIONS

Full Stack Java Development — ExcelR Solutions	2024
Java Full Stack Developer Internship — Aivariant	2024
